

Take the plunge...
make the sound choice of a
GalleyMate Marine Barbecue

THE GALLEYMATE

Our extremely high quality barbecue designs and outstanding manufacturing have won us many awards, particularly in the marine environment, where our barbecues are recognised as being amongst the very best worldwide.

- Stainless steel hot plates
- Totally windproof
- From two to four separate burners
- Heat resistant glass window
- Extremely solid construction (marine grade stainless steel)
- BBQ, oven and cooktop all in one
- Slide systems available
- Large range of accessories

SMALL BARBECUES

Our Small Barbecues are recognised as being the most versatile in the world enabling you to barbecue, roast and even use as a cook-top to boil the kettle etc.

What separates us from our competition!

- We are award winners for innovative design
- Our barbecues are all stainless steel construction, including the burners, that's why we can give a five year warranty!
- You can use our barbecues as a cooktop and oven
- We believe we are the only two burner marine barbecue in the world
- Separate burners mean better temperature control and more controllable heat
- 20,000 BTUs - the best our competitors can provide is 8,000 to 10,000 BTUs
- Ever had your barbecue blow out? Our unique design makes ours wind proof... guaranteed to 50kph
- Large viewing window - monitor what's cooking, no need to open and close the lid
- Lock the lid when not in use, no lost bits and pieces
- Large removable drip tray, no mess
- Mounting - there is not a boat we cannot fit
- Optional stainless steel stands for beach or bush

Even more options...

Hotplate: stainless steel in full plate, full grill or ½ & ½

For the gourmet: our optional spit roast assembly

Utensil trays: keep tongs and other utensils near your barbecue

Cooking rack: turn your barbecue into a cook top or an oven

Baking dish: our very own 1mm thick marine stainless. Bake a whole chook and all the vegies

LPG gas regulators and hose: for swap and go type bottles

Disposable bottle regulators: for the Coleman (green) bottles

Bayonetted gas hoses: plug straight into your boat or van

MOUNTING OPTIONS

for the GM1100, GM1500 and GM2000

Railmount Outboard Clamp

These ingeniously designed and manufactured clamps are made from marine grade stainless steel, enabling simple and easy installation and removal – on and off in 5 seconds. The clamp is designed to stay on the rail when not in use.

- A** The leg of the barbecue, which is fixed to the barbecue on all smaller models, slides into the rail outboard clamp (**B**).
- B** The rail mount clamp. This bracket is bolted onto your railing system (fits rails 3/4" (19mm) to 32mm (11/2"). Other options are available for different size rails.
- C** This is a spring loaded pin which locks your Galleymate to the rail clamp bracket. **A** is locked into **B**.

Rod Holder Mount

The barbecue legs slide onto the Rod Holder Mount and can be adjusted to the correct angle and locked into position.

Flush Deck Mounts

These are used to mount your BBQ into a large wooden rail or transom. The legs of the BBQ simply slip over the pin **A** which is placed in the Flush Deck Mount **B** which assembles as **C**. This enables you to simply remove the BBQ when finished and stow it away.

OPTIONAL EXTRAS

Regulator for Disposable Gas Bottles

This regulator enables you to use the green Coleman small disposable gas bottles (inset image - disposable gas bottle not included). This is a handy option, even as a backup in case your tank runs out. These bottles will cook about 5 barbecues. Safe and saves having a large tank on board.

Marine Grade Stainless Steel LPG (Propane) Gas Bottles

- 1.2kg** 225mm x 224mm
- 2.4kg** 310mm x 224mm
- 3.4kg** 370mm x 224mm
- 4.5kg** 450mm x 224mm
- 5.8kg** 540mm x 224mm
- 10kg** 790mm x 224mm

LPG Gas Regulator and Hose

For swap and go type bottles.

Bayonet Hose

Hose for use when your boat is equipped with an integrated gas system and has the female bayonet fitting available.

Galleymate Covers

Saltwater resistant canvas covers available for all models. Colour: Captains Navy

Beach Stand

This stainless steel stand is ideal for setting up on a beach or camping. It folds away to 900mm x 450mm and weighs only 2 kilograms.

Stainless Steel Hot Plates

All our barbecues come with a choice of cooking surfaces. For the gourmet cook we have stainless steel half or full grill hotplates which are ideal for those who want to cook over a flame grill. These hot plates require the attachment of flame dispersers fitted to the standard burners.

Utensil Tray

The utensil tray is a very handy tray used to hold your barbecue tools and helps to avoid spatter on your boat. Available for the GM1100, GM1500 and GM2000 Models.

Cooking Rack

Fits directly over the top of the burners, giving close contact with the heat. By removing the hotplate and inserting the cooking rack, the barbecue becomes a stove-top or an oven.

Baking Dish

Made of a heavy marine grade stainless steel designed to fit right across the back of the barbecue.

Spitroast / Rotisserie Assembly

Mains power or 2 D-cell batteries.
